DIGITAL GUIDELINES:

High quality digital photos reproduce the best in printing. Make sure your camera is set to take the largest photo format. To insure high quality for 11" X 8.5" prints, images should be at least 3300 X 2550 pixels. (Bigger is better), JPEG, or TIFF, files are preferred. Be sure the camera is set to save at highest quality.

We need to be able to open any file type that you send. The minimum size photo for artwork is 3300 X 2500 pixels or more.

Check that your email does not compress the file before sending it.

For the best printed artwork, please do not crop, photoshop, or adjust the brightness, contrast, or vibrancy. Keeping the photo raw gives us the best options for adjusting.

Make sure the lighting used for the photo is bright. Use two diffused light sources or take the photo outdoors. Try to minimize or eliminate shadows. PLEASE NOTE: Art behind glass is difficult to photograph.

Please use a neutral background if you are photographing 3D art such as furniture, ceramics, or sculpture.

ADDITIONAL OPTION:

If your submitted artwork photos do not meet the quality standards for the Calendar, you have the opportunity to bring your artwork to the Glenwood Community Center on Wednesday, Aug 18, 2021.

David Thornburg will be photographing artwork from 10am to 2pm.

Appointments are available by emailing David at doubtfulvalley@gmail.com

If your artwork is not mobile, email David at this same address, to make other arrangements.
